SAAS PRODUCTS

We provide variety of Cloud hosted applications which allow businesses to do rapid implementation without any capital expenditure on Infrastructure.

Workman Technologies has developed Cloud hosted applications for various Industries which are provided as SAAS. We have also partnered with many Software companies to enhance our software service portfolio. Workman Technologies owns a concept of rentApp in which we partner with your desired Software Vendors and Integrate all Applications and Tools to provide you a single sign-on and maintenance window for multiple apps. We expertise in managing trunked projects and implementing integrated helpdesk system for user community. Integrated SAAS Model allows seamless implementation for your business.

SOFTWARE DEVELOPMENT

We combine mature processes, proven methodologies, robust delivery models and world-class expertise to help organizations leverage technology, and drive business transformation. Our engineers enable organizations to bring about cost and operational efficiencies with streamlined and modernized application portfolios. With extensive experience across linear models, Rapid Application Development and Agile approaches, we can develop delivery structure as per business and customer's requirements.

Web Development

We help you integrate innovative web based solutions for your business.

App Development

We help you integrate innovative mobile based solutions for your business.

STAFF AUGMENTATION

Recruitment

A good recruitment process allows you to find qualified candidates quickly and efficiently.

Attendance Management

We maintain efficient system and records of workplace attendance i.e. the hours and days that employees show up for work.

Compliance

Encompassing several elements including background and reference checking, psychometric testing and data privacy and security

Payroll + Payment

We offers a full payrolling service for temporary and contract workers along with the payment of employees and responsibility for their official records, etc.

Part-timers

A flexible system of hiring highly trained staff as per your convenient time and space.

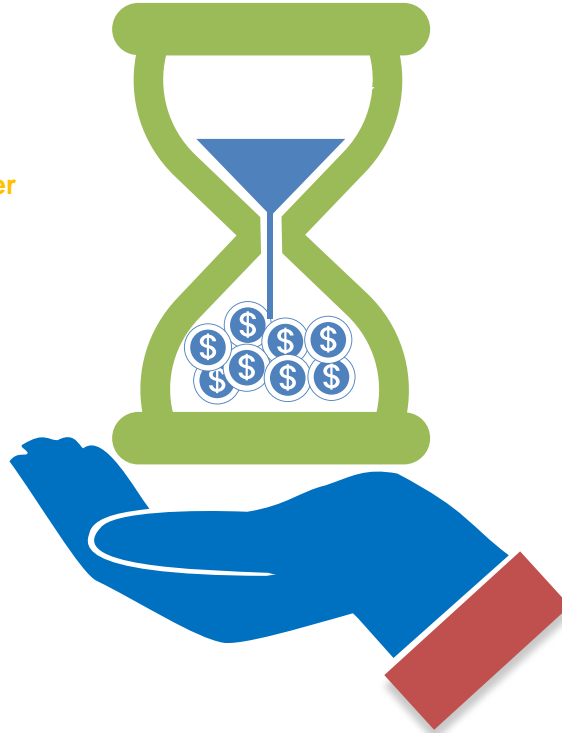

Cost effective solutions

We free you from the hassle of recruiting, selecting, Onboarding, compliance management, etc. to let your business focus on keys.

Part- time employee concept

Part-time job by definition is a form of employment that carries fewer hours per week than a full-time job. They work in shifts. The shifts are often rotational. Workers are considered to be part-time if they commonly work fewer than normal working hours per week. Productivity of part-time workers can be higher than that of full-time workers because of lower stress, lower absenteeism, better work–life balance, and a more flexible work organization.

Cost effectiveness

Part-timing helps you save and grow as it helps to extract full potential of an employee in a constrained time.

Specialisation

Hiring part-time workers specialised in specific work and industry leads to increased productivity, profit and growth.

Flexibility

Working with part-timers can be really easy and comfortable as it is a flexible solution as it releases organisation from the hassle of fixed time and place.

SOLUTIONS THAT TAKE YOU FORWARD

We aim to provide IT solution to every
business in best and most efficient ways
possible.
